

Registration policy

eLearning self studies

Registration policy

PricewaterhouseCoopers LLP reviews and updates all eLearning programs on an “as- needed” basis. In the event that an active course is removed from our library for updating, all active, incomplete learners will be transferred into the updated version at no-charge. All course registrations expire one-year from the date of purchase.

Full payment will be required at the time that the participant purchases the course. It is important that the participant read the full description of the eLearn course prior to purchase as once the course is purchased there will be no refunds provided. Participants must complete the course and pass the assessment within the one-year time frame in order to qualify for CPE credit.
